Come Dive With Me!

Objective: The aim of my project will be to demonstrate the design of a website that provides information regarding scuba diving sites around the world. The information will come from my personal experience and a little research and it will focus on four major locations.

1. **Homepage:** This page will have an introduction to the website along with a map that will allow the viewer to look at and visit each of the suggested locations.

2. **Spain:** This page will display a general description of the region and the country. It will also allow the viewer to zoom into the specific location, (Costa Brava) for more details.

   a. **Costa Brava:** Details about the region and dive site (the type of water, what they dive site looks like, what type of spices will you find, what equipment will you need when you dive, along with some images of the site)

3. **Thailand:** This page will display a general description of the region and will then have the option to zoom into the specific location, (Phuket) for more details.

   a. **Phuket:** Details about the region and dive site (the type of water, what they dive site looks like, what type of spices will you find, what equipment will you need when you dive, along with some images of the site)

4. **Croatia:** This page will display a general description of the region and will then have the option to zoom into the specific location, (Hvar) for more details.

   a. **Hvar:** Details about the region and dive site (the type of water, what they dive site looks like, what type of spices will you find, what equipment will you need when you dive, along with some images of the site)

5. **Australia:** This page will give a general description of the region and will then have the option to zoom into the specific location, (Gold Coast) for more details.

   a. **Gold Coast:** Details about the region and dive site (the type of water, what the dive site looks like, what type of spices will you find, what equipment will you need when you dive, along with some images of the site)

6. **Equipment:** This page will have a list of the various types of equipment used while scuba diving, and have a note on how to ensure that it is safe for use

7. **Fun Facts about Diving:** This page will display fun facts and trivia about diving

8. **Contact Us**

9. **About Us**

10. **Credits**
